Auditor Hours Spent:	4
Notes/Steps:	Noted: A/R decreased by 28% while sales only decreased by 9%, as well as Delinquent A/R of 2%, indicating that the client had better collections throughout the fiscal year Tested: After confirming balances from client's customers, we tested samples of collections Note: Deposits are entered directly from bank to A/R: Needs to be reclassified
Deviations/Exceptions Noted:	Deviation #1 - We have currently spotted \$154456.51 from three customers that we are requesting the client to reclassify as liability Deviation #2 - We received 6 confirmations from customers, Two customers provided large discrepancies and will require us to inquire further with the client. Deviation #3 - Need to inquire DM related to 7/28/2023 as to whether the client received the payment on this invoice.
Critical Audit Matter(CAM):	Not existing for this workpaper
Conclusion:	To conclude this workpaper, the following needs to be completed: 1) verify if the "collectible" amounts in the allowance for bad debt has been received by the customer 2) Verify the large variances noted by the client's customers on the balance confirmation 3) Inquire DM on 7/28/2023
